

JOURNEY RESOURCES CORP. COMPLETES 2009 DRILLING ON THE MUSGROVE CREEK GOLD PROJECT

Vancouver, B.C. - JOURNEY RESOURCES CORP. ("Journey") announces drilling was completed successfully at the 100% owned Musgrove Creek Gold Project, near Salmon, Idaho.

The results from Journey's two previous drill programs have indicated a tangible target for ore grade mineralization named the "Johny Northwest target area", located midway between those two groups of drill holes. Ten reverse circulation holes totalling 625 meters (2,050 feet) were recently drilled to test that target area, and the access road has been reclaimed. Samples have been shipped to ALS Chemex, and assay results are expected within a few weeks.

Planning for the 2010 work program is ongoing.

Musgrove Creek is an advanced gold exploration project located in Lemhi County, Idaho, approximately 24 km (15 miles) southwest of the recently mined Beartrack gold deposit. The property is accessed from Salmon or Challis, Idaho by about 80 km (50 miles) of paved, gravel and dirt roads.

Musgrove Creek contains a NI 43-101 Inferred Mineral Resource estimate of 8 million tonnes at 1.22 g/t Au (0.036 oz/ton) at a gold cut-off of 0.8 g/t (0.023 oz/ton). This is equivalent to 9,761 kg (313,822 oz) of gold at zero dilution (Gruenwald and Makepeace, 2004). Recent exploration activity conducted at Musgrove is focused on adding to that resource with the objective of establishing a minable deposit.

Jack Bal, President and CEO of Journey commented: "We are pleased that the drilling and reclamation was completed on schedule. The Johny's Point Resource area and adjacent prospective ground will be the focus of our 2010 drilling program, with the goal of adding to the currently defined resource."

About Journey Resources Corp.

Journey Resources Corp. <http://www.journeyresourcescorp.com> is a mineral-exploration resource company trading on the TSX Venture Exchange (Symbol : JNY) the Frankfurt Stock Exchange (Symbol : JL4) and the OTC Bulletin Board (Symbol : JNYRF). The Company is currently exploring four advanced exploration-stage projects; the Vianey Mine Silver Project, the Musgrove Gold Project, the Silver Mountain Project and the Charay Gold Project. The Vianey Mine Project consists of concessions totaling 5,022 hectares in Guerrero State west of Mexico City, Mexico. The Musgrove Project is a prospect for a disseminated gold bulk-tonnage surface project similar to the Beartrack Mine, a nearby former gold producer. In addition, the Company recently purchased a 100% right, title and interest in and to certain mining claims comprising the Silver Mountain Property in Lima, Peru. The Silver Mountain Property is an advanced stage exploration property covering approximately 1,684 hectares, located approximately 75 kilometers east of Lima City and 50 kilometers south of Peru Copper's Toromocho property and Pan American Silver's Morococha Mine. The Company also recently announced the acquisition of the Charay high-grade gold project in Sinaloa, Mexico.
